

Arnold Irrigation District (AID)
Patron Communication
September 9th, 2026

Attention Patrons,

Based on the current natural flow of the Deschutes River, we have sufficient natural flow available to operate the system.

We will begin turning the water **ON September 15th at 12:00 a.m.** to begin charging the system. Please be aware that it may take some time for the system to fully charge and for water to reach all service areas.

At this time, we anticipate operating the system into October, provided there is sufficient demand from our patrons to support continued operation.

If you were on when we shut off on August 17th, be aware that when the system is fully charged your water is going to be ON. If you do not want water, please call the office to have your headgate closed.

We appreciate your patience as we bring the system back online and thank you for your cooperation.

Sincerely,

Arnold Irrigation Management
